ECS501

(Following Paper ID and Roll No. to be filled in your Answer Book) PAPER ID: 2164

Roll No.

B. Tech.

(SEM. V) ODD SEMESTER THEORY EXAMINATION 2010-11 **OPERATING SYSTEM**

Time: 3 Hours

Total Marks: 100

Note: -- Attempt all questions.

- $(5 \times 4 = 20)$ Attempt any four parts of the following :-1.
 - (a) What is an Operating System? Discuss the main Services of the operating system.
 - Discuss the differences between a time sharing system (b) and real time system.
 - Discuss the objectives of the Multiprocessor systems. (c)
 - What do you mean by Kernel ? Explain monolithic (d) kernel and microkernel.
 - Describe the steps involved in Booting. (e)
 - Explain the following:-**(f)**
 - Multitasking (i)
 - (ii) Multithreading.
 - Attempt any two parts of the following: (10×2=20) 2.
 - Write an algorithm to explain the producer/consumer (a) using semaphores.

- (b) (i) Compare and contrast the use of monitors and semaphores operations.
 - (ii) What is Critical Section? Discuss.
- (c) Discuss one classical problem related to the process synchronisation.
- 3. Attempt any two parts of the following :— $(10\times2=20)$
 - (a) (i) Explain the need for Process Control Block (PCB).
 - (ii) Discuss the performance criteria for CPU scheduling.
 - (b) (i) Describe the necessary condition for deadlock to occur.
 - (ii) In the respect of Banker's Algorithm discuss whether system is safe or unsafe. If a system is safe, show how it is possible for all users to complete:

	Current loan	Maximum need
user (1)	2	6
user (2)	4	7
user (3)	5 .	6
user (4)	0	2
Available		1

- (c) Explain the following scheduling algorithm :---
 - (i) Multilevel feedback queues scheduling
 - (ii) First In First Out (FIFO) scheduling.

- 4. Attempt any two parts of the following: (10×2=20
 - (a) What do you understand by fragmentation? What are the different techniques to remove fragmentation in case of multiprogramming with fixed partitions and variable partitions? Discuss.
 - (b) Define virtual memory concepts and also discuss page replacement algorithms in brief.
 - (c) Write short notes on :--
 - (i) Thrashing
 - (ii) Cache memory organisation.
- 5. Attempt any two parts of the following:— (10×2=20)
 - (a) What are the different file organizations? Discuss access mechanisms.

3

- (b) Explain the following:-
 - (i) Directory System
 - (ii) File Protection
- (c) Discuss the disk scheduling algorithms.
